### Address

Federal B Area Karachi,Pakistan

## ABOUT ME

An exceptionally creative individual with in-depth knowledge of programming languages and development tools, possessing good interpersonal and analytical skills. Ability to adhere to design and develop software applications and thrive and learn on my own under little or no supervision, with 1+ years of working experience on diverse web, mobile, and cloud technologies like Asp .NET core, React Native, JavaScript, AWS, and GCP. Seeking the role of a Software Engineer in a leading organization to incorporate my expertise in application design, development, and deployments.

## EXPERIENCE

August 22 - Present

### STRAYASOFT

Melbourne, Australia

### CO-FOUNDER / FULL STACK DEVELOPER

- As a co-founder of a software company, my responsibilities are aligned with company's vision and strategy to strengthen strategic partnerships with clients and vendors
- To work towards evolving the company's business model to become the leading edge technology solution provider for the growth of our IT and BPO services
- To ensure financial gains for our stakeholders, customers and employees
- To be the trusted partner of our clients, helping them to enhance their business performance by providing them with innovative, state-of-the-art software solutions, automated and integrated workflows and business processes and the highest quality of IT enabled services
- Working on Serverless functions and WhatsApp message integration
- Integration of Payment gateway using Stripe for online transactions

Nov 21 - Present

### MOBIUS
